

[Error Loading Library 7z Dll Windows 8 Usb](#)

The screenshot shows the Windows Group Policy Editor interface. On the left, the tree view is expanded to 'Local Computer Policy' > 'Computer Configuration' > 'Windows Settings' > 'Security Settings' > 'Software Restriction Policies'. The 'Enforcement' folder is selected in the 'Object Type' pane on the right. The 'Enforcement Properties' dialog box is open, showing the 'General' tab. The dialog contains the following options:

- Apply software restriction policies to the following:**
  - All software files except libraries (such as DLLs)
  - All software files
- Note:** If the default level is Disallowed, applying software restriction policies to libraries requires you to set rules for all the libraries used by a program in order to use the program.
- Apply software restriction policies to the following users:**
  - All users
  - All users except local administrators
- When applying software restriction policies:**
  - Enforce certificate rules
  - Ignore certificate rules
- Note:** Certificate rules will negatively impact the performance of your machine.

At the bottom of the dialog are 'OK', 'Cancel', and 'Apply' buttons.
